

Instructions for Sewing in Wig Tags

Our wig tags are designed to be sewn into the cap of a wig. The wig tags are usually 1.5" wide by 0.75" tall - though you can make them a little shorter than 0.75" if you want.

Wigs:

1) Cut the wig tag off the roll

2) Sew it onto a seam in the cap by hand or by machine.

When the wig is worn the tag won't be seen.

Hair Pieces:

Inventory tags can be handsewn into hair pieces.

Storage Labels:

You can also request Large Adhesive Labels with the same Tag ID to put on the storage bag/box.
